Leave No Trace Master Educator Course @ Makanda, IL
Southern Illinois University - Touch of Nature Environmental Center
1206 Touch of Nature Road
MAKANDA, IL 62958

09:00 AM - 03:00 PM CST
JD Tanner, 6184533942
jdtanner@siu.edu

Learn to travel responsibly and sustainably in the out of doors. Within the diverse ecosystems of our public lands in Southern Illinois and other parts of the United States, you will learn and teach the principles of Leave No Trace and discuss wildland ethics. Most of your courses will begin in an indoor classroom setting at Touch of Nature where you will learn and discuss the history of the Leave No Trace program, receive an introduction to Leave No Trace principles, and make final preparations for backcountry travel (frontcountry courses will start the same way but will consist of day outings after day 1). Throughout the remaining days of the course, you will put your new skills into practice on a multi-day, backpacking or canoeing expedition in a stunning area of the United States.

Leave No Trace courses are conducted in a variety of settings. Touch of Nature has unique access to state parks and national forests for these courses giving students the opportunity to practice Leave No Trace skills in beautiful environments. In addition to hands-on practical application of skills, every student will hone their teaching style by presenting a 15- to 20-minute class on a Leave No Trace topic of their choice. Graduates of Leave No Trace Master Educator courses will have the skills to teach others about Leave No Trace. College credit is available for most Touch of Nature Leave No Trace Master Educator courses.

August 5, 2020

Town Hall, Summer 2020 [08.05]

Online, 1-2 PM Eastern

01:00 PM - 02:00 PM EST

AORE,
nationaloffice@aore.org

We invite you to join our conversations regarding the proposed AORE bylaws developed by the Bylaw Alignment Taskforce and approved by the Board. We will offer two (2) unique days and times to provide context for the proposed bylaw alignment, an overview of the process, and provide members with opportunities to ask questions. The session(s) will be recorded so those unable to attend either live session can still access the information.

*If you would like to submit questions ahead of time, please do so using this link:
<https://mms.aore.org/members/form.php?orgcode=AORE&fid=4376883>*

Previous and ongoing communication about the bylaws is available through the Bylaws Alignment Resources page.

Town Halls will be held:

8/05/2020, 1:00PM EST

8/12/2020, 8:30 PM EST

Please register for one (or both) in advance: <https://aore.org/events.php>

An opportunity to vote on the proposed bylaws will take place virtually along with BOD elections from September 1 - September 30th.

Thanks for your continued investment in the Association.

August 12, 2020

Transitioning from College to Workforce [Emerging Outdoor Professionals Webinar]

3:00 - 4:00 PM EST

03:00 PM - 04:00 PM EST

AORE,
nationaloffice@aore.org

August 12, 2020

AORE Webinar: Programming for AORE's Day of Service

Online

04:30 PM - 05:30 PM EST

AORE National Office, 810.299.2782

nationaloffice@aore.org

Learn some new ideas of how to programming for this year's Day of Service on Saturday September 26th. We will cover both in person and virtual offerings that you can incorporate into your planning for a successful and meaningful day.

This webinar is presented by AORE's Environmental Stewardship Committee.

August 12, 2020

Town Hall, Summer 2020 [08.12]

Online, 8:30-9:30 PM Eastern

08:30 PM - 09:30 PM EST

NOLS Risk Services, 307-335-2222
risk_services@nols.edu

Manage Risk on Wilderness Trips

You're ready to go deeper into the outdoors—but it takes more than luck to get home safely.

Risks can't be eliminated from the wilderness, but you can learn to manage them. In this 2-day classroom course, you'll learn to plan your adventures with risk management in mind (hint: it's more than first aid skills!).

When you start a trip with a plan, you can focus on having fun instead of managing unexpected problems. When you're able to identify hazards, injuries are less likely. And if something goes wrong despite your preparation, having a plan sets you up for an effective response.

This course is relevant for outdoor enthusiasts, guides, and trip leaders of all experience levels, especially those who may venture beyond the reach of traditional emergency services (places with unreliable cell service, poorly maintained roads... or none at all).
What You'll Learn

Trip planning principles and how to identify life-threatening wilderness hazards
Outdoor leadership and decision-making strategies
Emergency planning (self assessment tools included)

Course Topics

Trip planning
Hazard identification and assessment
Outdoor leadership and decision making
Communication
Emergency planning
Risks unique to solo adventures
Working with third party contractors
Reflection and post-trip learning

Presented by NOLS and hosted by REI

Wilderness First Responder (Standard WFR) @ Mazama, WA

Northwest Outward Bound School

12:00 AM - 12:00 AM PST

Joel Reid, 509-996-3170

jreid@nwoutwardbound.org

For

Outdoor professionals, those who take multi-day or longer personal trips, those who take part in high risk activities (rock climbing, whitewater paddling, mountaineering, multi-week expeditions of all kinds, etc.), or those who simply want to know more about wilderness medicine. Certification as a Wilderness First Responder is the industry standard for outdoor instructors and guides. We recommend taking the full course every six years.

Description

Our standard WFR course is 9-days long; the practical session of our hybrid WFR is only 5-days but requires pre-course study and successful completion of three online exams in order to attend. Adult & Child CPR/AED certification is included. If you are interested in a hybrid WFR please visit the [hybrid WFR website's](#) homepage for course details and read the blog article [Is a Hybrid Course in Wilderness Medicine Right for You?](#) before registering and paying for the course.

NOLS Risk Management Training for Administrators @ Golden, CO
American Mountaineering Center
710 10th Street
Golden, CO 80401
08:00 AM - 05:00 PM MST
NOLS Risk Services, 307-335-2222
risk_services@nols.edu

How would you rate your risk management practices? This self-assessment tool can help you answer that question. Could you use some support?

In the 2-day NOLS Risk Management Training, you are given a framework from which to evaluate your own program's risk management plan. The framework is based on five areas of risk management: risk management oversight; core curriculum; administrative process; staff training and field risk management; and field support services and emergency planning. You will go through a series of exercises and you will be able to ask questions that are pertinent to your specific program and pertinent industry practices. The training culminates in an in-depth emergency scenario. You will leave the training having written a 10-step personalized action plan.

Tools You'll Receive:

*Risk Management Action Plan Workbook
NOLS Crisis Management Template and NOLS Wilderness Medicine Protocol Package
Resource examples and templates, including a risk release, health form, orientation checklist, transportation policy, and more.*

MAKANDA, IL 62958

09:00 AM - 03:00 PM CST

JD Tanner, 6184533942

jdtanner@siu.edu

Learn to travel responsibly and sustainably in the out of doors. Within the diverse ecosystems of our public lands in Southern Illinois and other parts of the United States, you will learn and teach the principles of Leave No Trace and discuss wildland ethics. Most of your courses will begin in an indoor classroom setting at Touch of Nature where you will learn and discuss the history of the Leave No Trace program, receive an introduction to Leave No Trace principles, and make final preparations for backcountry travel (frontcountry courses will start the same way but will consist of day outings after day 1). Throughout the remaining days of the course, you will put your new skills into practice on a multi-day, backpacking or canoeing expedition in a stunning area of the United States.

Leave No Trace courses are conducted in a variety of settings. Touch of Nature has unique access to state parks and national forests for these courses giving students the opportunity to practice Leave No Trace skills in beautiful environments. In addition to hands-on practical application of skills, every student will hone their teaching style by presenting a 15- to 20-minute class on a Leave No Trace topic of their choice. Graduates of Leave No Trace Master Educator courses will have the skills to teach others about Leave No Trace. College credit is available for most Touch of Nature Leave No Trace Master Educator courses.

NOLS Risk Services, 3073352222
risk_services@nols.edu

Manage Risk on Wilderness Trips

You're ready to go deeper into the outdoors—but it takes more than luck to get home safely.

Risks can't be eliminated from the wilderness, but you can learn to manage them. In this 2-day classroom course, you'll learn to plan your adventures with risk management in mind (hint: it's more than first aid skills!).

When you start a trip with a plan, you can focus on having fun instead of managing unexpected problems. When you're able to identify hazards, injuries are less likely. And if something goes wrong despite your preparation, having a plan sets you up for an effective response.

*This course is relevant for outdoor enthusiasts, guides, and trip leaders of all experience levels, especially those who may venture beyond the reach of traditional emergency services (places with unreliable cell service, poorly maintained roads... or none at all).
What You'll Learn*

*Trip planning principles and how to identify life-threatening wilderness hazards
Outdoor leadership and decision-making strategies
Emergency planning (self assessment tools included)*

Course Topics

*Trip planning
Hazard identification and assessment
Outdoor leadership and decision making
Communication
Emergency planning
Risks unique to solo adventures
Working with third party contractors
Reflection and post-trip learning*

Presented by NOLS and hosted by REI

NOLS Risk Management Training for Administrators @ Burlington, VT
Doubletree by Hilton Burlington Vermont
870 Williston Rd
South Burlington, VT 05403
08:00 AM - 05:00 PM EST
NOLS Risk Services, 3073352222
risk_services@nols.edu

How would you rate your risk management practices? This self-assessment tool can help you answer that question. Could you use some support?

In the 2-day NOLS Risk Management Training, you are given a framework from which to evaluate your own program's risk management plan. The framework is based on five areas of risk management: risk management oversight; core curriculum; administrative process; staff training and field risk management; and field support services and emergency planning. You will go through a series of exercises and you will be able to ask questions that are pertinent to your specific program and pertinent industry practices. The training culminates in an in-depth emergency scenario. You will leave the training having written a 10-step personalized action plan.

Tools You'll Receive:

*Risk Management Action Plan Workbook
NOLS Crisis Management Template and NOLS Wilderness Medicine Protocol Package
Resource examples and templates, including a risk release, health form, orientation checklist, transportation policy, and more.*

October 28, 2020
- October 30, 2020

Wilderness Risk Management Conference (WRMC) @ Burlington, VT
DoubleTree by Hilton
870 Williston Road
Burlington, VT 05403
05:00 PM - 09:00 PM EST
WRMC Staff, 307-335-2318
wrmc@nols.edu

Mark your calendar for the 27th annual conference in Burlington, Vermont, October 28-30, 2020.

The core objective of the Wilderness Risk Management Conference (WRMC) is to offer an outstanding educational experience to help you mitigate the risks inherent in exploring, working, teaching, and recreating in wild places.

Attend the WRMC to gain practical risk management skills, network with others in the industry, share field and administrative techniques, and help develop risk management standards for the outdoor adventure and education industries.

The WRMC is presented by NOLS in partnership with Outward Bound, Student Conservation Association, and the members of the WRMC Steering Committee.

Conservation Career Advisor Webinar [Emerging Outdoor Professionals Webinar]

2:00 - 3:00 PM EST

02:00 PM - 03:00 PM EST

AORE,

nationaloffice@aore.org

Presenter: Lisa Yee-Litzenberg

Lisa is a certified career coach with over 25 years as a green career expert. She is President of Green Career Advisor, which she launched in 2016, and is passionate about helping people find and secure their dream green jobs. In past roles, Lisa led the University of Michigan School for Environment and Sustainability's graduate career services for 10 years where she assisted thousands of students in finding and securing dream internships and jobs. She has a strong network of green employers and professionals that she can connect clients with across all sectors. Additionally, Lisa spent 12 years working directly on conservation issues with the National Wildlife Federation. Her work focused on water quality, wolf conservation, and federal endangered species legislative efforts. She also helped develop students and women as environmental leaders to diversify traditional state conservation organizations. Lisa has a Natural Resources Management degree from the University of Michigan's School for Environment and Sustainability. Outside of work, Lisa is an avid soccer player and nature nerd who loves camping, hiking, and traveling.

Leave No Trace Master Educator Course @ Makanda, IL
Southern Illinois University - Touch of Nature Environmental Center
1206 Touch of Nature Road
MAKANDA, IL 62958

09:00 AM - 03:00 PM CST

JD Tanner, 6184533942

jdtanner@siu.edu

Learn to travel responsibly and sustainably in the out of doors. Within the diverse ecosystems of our public lands in Southern Illinois and other parts of the United States, you will learn and teach the principles of Leave No Trace and discuss wildland ethics. Most of your courses will begin in an indoor classroom setting at Touch of Nature where you will learn and discuss the history of the Leave No Trace program, receive an introduction to Leave No Trace principles, and make final preparations for backcountry travel (frontcountry courses will start the same way but will consist of day outings after day 1). Throughout the remaining days of the course, you will put your new skills into practice on a multi-day, backpacking or canoeing expedition in a stunning area of the United States.

Leave No Trace courses are conducted in a variety of settings. Touch of Nature has unique access to state parks and national forests for these courses giving students the opportunity to practice Leave No Trace skills in beautiful environments. In addition to hands-on practical application of skills, every student will hone their teaching style by presenting a 15- to 20-minute class on a Leave No Trace topic of their choice. Graduates of Leave No Trace Master Educator courses will have the skills to teach others about Leave No Trace. College credit is available for most Touch of Nature Leave No Trace Master Educator courses.

Hybrid Wilderness First Responder (WFR) and WEMT Recertification @ Seattle, WA

Cascade Outdoor Education

12:00 AM - 12:00 AM PST

Joel Reid, 360-701-9105

joel@cascadeoutdoored.com

For

Our WFR & WEMT graduates are encouraged to attend on a yearly basis to maintain and polish their skills. Prior to your course you should thoroughly review your original course materials; there is NOT enough time in a Recertification course to cover all the material presented in your original course...yet you are still responsible for knowing it. If you wish a more complete review of the WFR or WEMT curriculum, consider taking our DLP WFR or WEMT course. The course includes Adult & Child CPR /AED certification. WEMT certifications remain valid for a maximum of three years with no grace period: Check the expiration date on your card.

Graduates from approved wilderness medicine schools may recertify with us by successfully completing a Recertification course or by completing a Wilderness First Aid course and passing our online WFR & WEMT Recertification test if they are currently certified OR in their grace period. [Click here for a list of currently approved providers.](#)

Description

Our standard WFR & WEMT Recertification course is 3-days long; our hybrid WFR & WEMT Recertification course is only 2-days but requires pre-course study and successful completion of an online exam. If you are interested in a hybrid WFR & WEMT Recertification please visit the [hybrid WFR & WEMT Recertification course website's](#) homepage for course details and read the blog article [Is a Hybrid Course in Wilderness Medicine Right for You?](#) before registering and paying for the course. You may also recertify your WFR or WEMT by taking one of our Wilderness First Aid courses and passing the online WFR & WEMT Recertification exam.
